THE COMMONWEALTH BUREAU OF PASTURES AND FIELD CROPS

HURLEY, BERKSHIRE

The Commonwealth Bureau of Pastures and Field Crops is one of 10 Bureaux and 3 Institutes which together form the Commonwealth Agricultural Bureaux. The Bureau is located at The Grassland Research Institute, Hurley, and its object is to collect and abstract all published scientific results on annual field crops, grasses, pastures, rangelands and fodder crops, and to circulate these abstracts in its two quarterly journals *Field Crop Abstracts* and *Herbage Abstracts*. The Bureau can provide an extended abstract should fuller information on a paper, or part of a paper, be required.

Over 1000 periodicals and reports from all parts of the world are regularly scrutinized. A list of those examined, together with their abbreviated titles, was published in *Field Crop Abstracts* Volume 15, No. 1.

The Bureau also undertakes the preparation of bibliographies on subjects within its scope.

Photocopies of articles can be supplied at a cost of 2s. per page of text and arrangements can be made for microfilms to be prepared at a charge of 2d. per page to Commonwealth countries and 3d. per page to others.

NOTES TO READERS

Field Crop Abstracts is concerned only with those aspects of agricultural science which are covered by the table of contents. For other aspects, e.g. plant breeding, soil science, plant pests and diseases (other than control), reference should be made to the C.A.B. journals covering those subjects. For abstracts dealing with plantation crops, including sisal, sugar-cane and tobacco, see *Horticultural Abstracts*.

Where † follows the number which appears before a heading, it indicates that the abstract or book review is duplicated in *Herbage Abstracts*.

The locality shown in square brackets at the end of the heading of an abstract indicates where the work was carried out.

' F.s.' at the end of an abstract indicates ' From summary '. Eng., Span., Ger., etc. denote language used in summary. Ext. = Extract.

The Executive Council of the Commonwealth Agricultural Bureaux is a signatory to the Fair Copying Declaration, details of which can be obtained from The Royal Society, Burlington House, London, W.1.

The Commonwealth Agricultural Bureaux Organization does not accept responsibility for any trade advertisement included in this publication.

FIELD CROP ABSTRACTS

The subscription rate (post free) for *Field Crop Abstracts* Volume 16, 1963 (4 issues), is 70s. sterling (in USA and Canada $10.50), with 20% discount for subscribers (non-trade) in the British Commonwealth and the Republic of Ireland who send their orders direct to the Commonwealth Agricultural Bureaux, Central Sales Branch, Farnham Royal, Bucks, England. Single issues are also available at 25s. each.

Payment can be made by personal cheque at current rates of exchange, by International Money Order, by Bank Draft in sterling, or, in certain countries, by UNESCO Book Coupons. In countries other than USA and Canada the approval of the local exchange control must be obtained, when required, for payment by personal cheque.

Scientific enquiries should be addressed to : The Director, Commonwealth Bureau of Pastures and Field Crops, Hurley, Berkshire, England.

HERBAGE ABSTRACTS

The subscription rate for *Herbage Abstracts* is the same as for *Field Crop Abstracts*. *Herbage Abstracts*, issued quarterly, presents in condensed form the world's current scientific literature on grasslands, fodder crops, and their management. A specimen copy will be sent on request.

The chief aim of this Bureau is to abstract all published results of current scientific research on annual field crops, herbage and fodders, and to make these abstracts available through the two quarterly journals, *Field Crop Abstracts* and *Herbage Abstracts*. To achieve this aim, the Bureau staff maintains a constant scrutiny of approximately 1000 periodicals, reports and occasional publications from more than 100 countries. A list of these periodicals and reports examined appeared in *Field Crop Abstracts* Vol. 15, No. 1. The Bureau is always seeking to expand its coverage, and suggestions for suitable additions to this list will be appreciated. All scientific publications relating to annual field crops, herbage and fodder crops, particularly special reports and advance copies of papers, are required so that they may be abstracted and their contents made known to our readers with the minimum delay. *Field Crop Abstracts*, now in its 16th year, has a world-wide circulation.

Translations are not undertaken by the Bureau, nor can publications be loaned.

Arrangements can be made for microfilms and photocopies to be supplied at the following rates (per page of text) : Microfilm to Commonwealth countries 2d., to others 3d. ; Photocopy 2s.

Suggestions for review articles, or comments on those published in the journals, are invited.

The Director is always pleased to receive comments on *Field Crop Abstracts* and suggestions for its improvement.

Field Crop Abstracts is concerned only with those aspects of agricultural science which are covered by the table of contents. For other aspects, e.g. plant breeding, soil science, plant pests and diseases (other than control), reference should be made to the C.A.B. journals covering those subjects. For abstracts dealing with plantation crops, including sisal, sugar-cane and tobacco, see *Horticultural Abstracts.*

Where † follows the number which appears before a heading, it indicates that the abstract, book review or title only, is duplicated in *Herbage Abstracts.*

The locality shown in square brackets at the end of the heading of an abstract indicates where the work was carried out.

' F.s.' at the end of an abstract indicates ' From summary '.

Eng., Span., Ger., etc. denote language used in summary.
